

## Innovation that Matters

Jupiter's product solutions empower customers.

At the forefront of innovation, our Pana ultrawide 5K large LCD and Zavus Xtreme Pixel MicroLED displays are the only comprehensive 21:9 product line in the world.

#### 33% more real estate 2.8 million more pixels

There is no debate as to the value 21:9 ultrawide 5K LCDs bring to the market: particularly in the enterprise space. Our passion for 21:9 5K has seemingly infected the world over. We will continue to push engineering boundaries in this space, as we're dedicated to only the 21:9 form factor.

—Sidney Rittenberg Jr, CEO of Jupiter

The 21:9 aspect ratio of 2.37:1 is positioned between the classical CinemaScope of 2.35:1 and the modern anamorphic cinematic content of 2.39:1

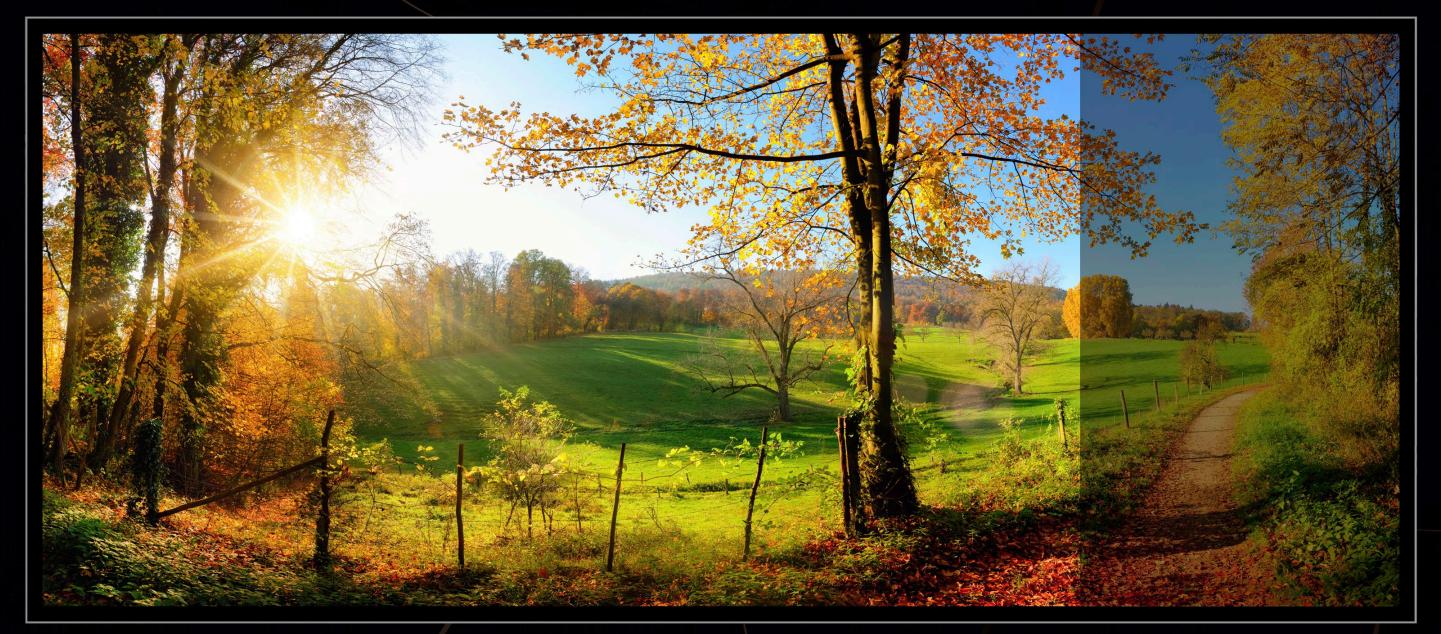

## Our eyes see far more horizontal than vertical

Field of view

130 - 135°

#### 4K 16:9

Go beyond 16:9 and bring **Cinematic** storytelling experiences to video walls, conferencing and hybrid workspace.

## Since 2018, Jupiter engineering has been developing 5K 21:9

#### 5K 21:9

# Zavus<sup>™</sup> Xtreme Pixel

## Zavus<sup>™</sup> Xtreme Pixel

Flip-Chip COB (Chip-on-Board) Ultra fine-pitch direct view MicroLED

Unmatched color and contrast

other brands

Our direct view MicroLED brings unprecedented control over the cabinet electronics. White point, color rendering and seam correction down to each individual LED module are available to control from a simple UI interface that is web-hosted and accessible from desktop or mobile end-points, with ultra-high bit-depth performance.

Easily access health monitoring from a web hosted interface that can encompass multiple LED wall locations for an entire building or campus. The Helios platform can be specified with the desired combination of modular inputs per project requirements.

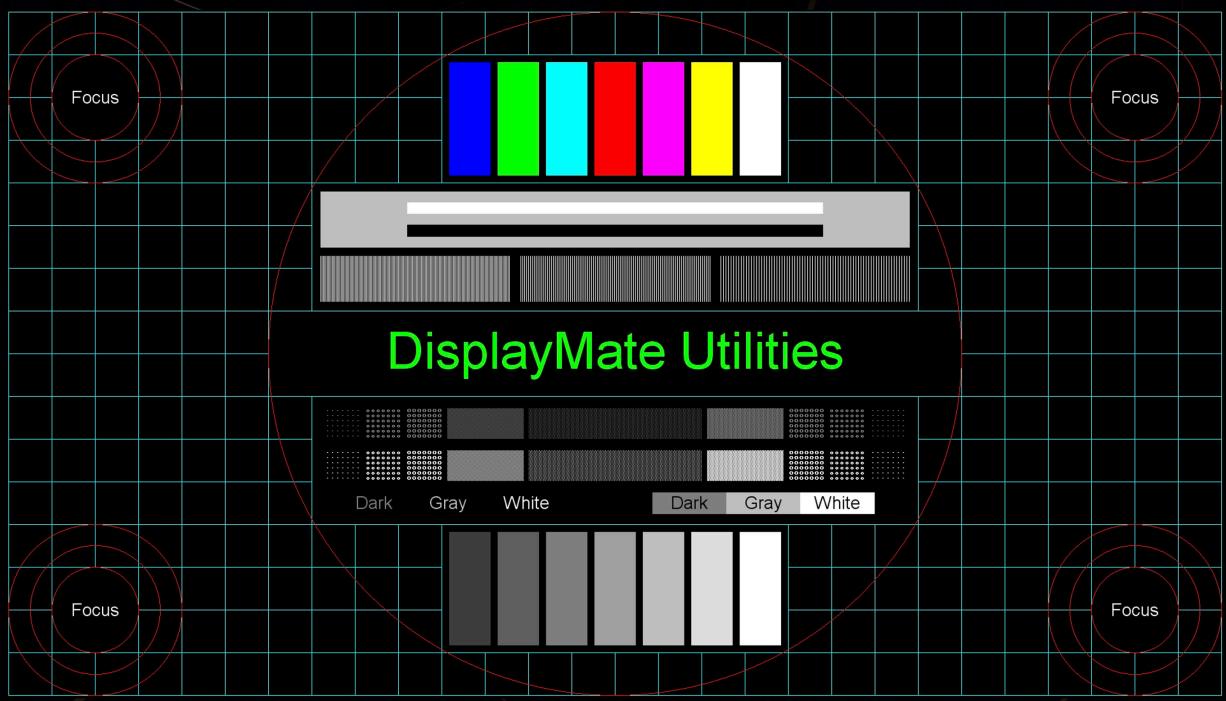

#### Jupiter proprietary MicroLED driver-board engineering

## At Jupiter, image quality is paramount.

Anyone can present a beautiful video with vivid colors but professional graphics applications is where true challenges lie. Zavus Xtreme Pixel was developed with the intent to satisfy not just digital signage, home theater, UC applications and broadcast, but critical eye viewing of CAD, data visualization, flight simulation and 3D modeling applications, on full white, true black, and the spectrum in between.

Part of our barometer was to engineer Zavus XP to excel against DisplayMate's tortuous test patterns.

## Seeing is believing.

th another, and to assume among the powers of the earth, the separate a hese truths to be self-evident, that all men are rtain unalienable Rights, that among these are Life. Liberty and the pursuit of Happiness - That to secure the structive of these ends, it is the Right of the People to alter or abolish it, and to indation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and appiness. Prudence, indeed, will dictate that Governments long established should not be chan ms to which they are accustomed. But when a long train of abuses and usu ariably the same Obje vinces a design to reduce them under absolute D a history of repeated injuries and usurpations, all having in direct object we this let Eacts he submitted to a candid world - He has ref peration till his Assent should be obtained; and when so suspended, he has utterly neg

with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of ature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impelify he separation. - We hold these truths to be self-evident, that all men are created equal, that they are endow rtain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. - That to secure these rights, Governme re instituted among Men, deriving their just powers from the consent of the governed. - That, whenever any Form of Government comes destructive of these solit, it is the Right of the People to alter or abolish it, and to institute new Government, laying its undation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient cause repriness "inderice, indexident and the other intervention ong espacial soften of the other intervention of the intervention of the other interventi overnment, and to provide new Guards for their future security. - Such has been the patient sufferance of these Colonies, and such w the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britai history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these Stat prove this, let Facts be submitted to a candid world. He has refused his Assent to Laws, the most wholesome and necessary for ne public good. - He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their ation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them. - He has refused

## Ultimate 21:9 video wall processor

#### Driving small to medium sized video walls at the highest resolution

- Ultra quiet i9 running Windows 10
- Output up to 5K 60Hz for Zavus XP
- Up to 16 inputs / outputs
- HDCP compliant
- Web / VNC / Application support
- Raid and redundant power supplies

## Output Canvas<sup>™</sup> software platform

#### Ultimate video wall management

- Web based, intuitive object-based, drag and drop interface
- Supports both Active Directory and Workgroup environments for user authentication
- Permission based access with identical views whether inside or outside of room
- Easily select streaming sources for sharing, annotate directly on live video and data, and control content from cameras, applications and web
- Arrange video and data windows anywhere on display wall at any size
- Save preset scenes in advance for quick recall for specific situations, specific users, or time of da
- Provides encrypted security and SSL authentication

# Pana X Premium Line

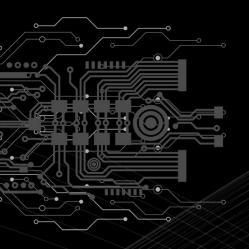

## Pana X Premium Line Quantum Dot Mini-LED backlit LCD

#### World's only 120Hz Native Refresh Rate at 5K

Our Quantum Dot Mini-LED backlight on a massive panel was so intense we had to develop a separate driver board as its engine. We went far beyond any enterprise display has ever accomplished in visual quality, challenging high-end home TV specs.

2300 Local dimming zones with Jupiter algorism 1,000,000:1 contrast Up to 1000 nits sustained brightness, 2200 peak DCI-P3 and Rec.2020 support InGlass touch for premium precision experience 4+1 speaker system with woofer, 78w total power Built-in USB-C 100w power delivery

Uniquely developed and tooled accessories

At Jupiter, we designed our own 120Hz 5K main board with a newly launched chipset, blueprinted our own FPGA board, our own power board, our own Mini-LED hub board with proprietary local dimming algorithms.

Radiation interference test

Compression stress test for logistics

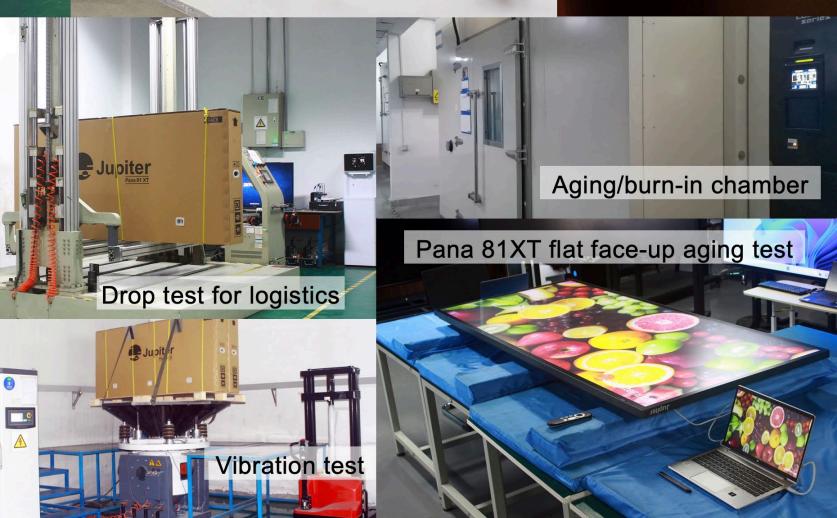

Component temperature rise test

#### Pana 105XT in 45° downward aging test, with 50kg weights solely on glass 24/7

## Design Engineer Test

#### Manufacture

## Designing the details

Pana 105's VESA pattern is 1500 x 600mm, developed so a mount can firmly support our large ultrawide dimension especially during touch usage.

Our X models' VESA pattern is perfectly centered when mounted in either landscape or portrait mode.

Jupiter's Pana packaging was designed to have the mounting holes fully exposed while the large display still rests in the box.

Pana X cardboard packaging has a burst strength of 30kgf (kilogram force) and edge crush resistance of 14kN/m (kilonewtons per meter), more durable means less prone to impact damage.

Jupiter's proprietary 21:9 5K collaboration gateway bundled with all Pana displays

Jupiter's processors are made in our California headquarters facility. Our factory space is ISO 9001:2015 certified for the design, development, manufacture, marketing, sales, order fulfillment, and call center support of visualization products. Our video wall processors support the 21:9 5K form factor.

Canvas, our powerful collaborative visualization software, along with SimpleShare, were designed and developed in the USA.

## Responsible manufacturing Eco conscious packaging

Jupiter's Pana manufacturing facilities are certified to these environmental and social standards

- ISO 9001 Quality Management System
- ISO 14001 Environment Management System
- ISO 45001 Occupational Health and Safety Management Systems
- SA 8000 Social Responsibility Standard

Pana packaging uses certified FSC (Forrest Stewardship Council) responsible forestry paperboard and recycled pulp. Printing on packaging uses soy-based ink.

Jupiter's Pana displays are MSDS compliant throughout supply chain and manufacturing. Material Safety Data Sheet assures components and parts that make up the finished product to abide by strict chemical and raw material standards.
